Personal Statement

Dedicated computer programmer with **5 years** of experience in software development, coding, and problem-solving. Proficient in various programming languages and frameworks. Passionate about staying up-to-date with emerging technologies.

PROFESSIONAL EXPERIENCE

Feb 2020-30 April Industrial attachment at The Supreme Court

I concluded a three-month office attachment in the Supreme court of Kenya where I was able to gain real work experience and completed my certification training learning a lot from a very short time. In my time at the Judiciary, I was able to achieve a lot that is:

- Assisted in fixing network connectivity issues and helped other employees with troubleshooting any pc problem that may have come up.
- Helped with the onboarding of new employees and setting up their offices/workstations.
- Aided any organizational staff that needed any sort of help with printing or had problems with their desk phones etc.

OTHER WORK EXPERIENCES

2022 November-May 2024 Support staff at Naivas supermarket

I worked as a line manager and my daily tasks included:

- Helping customers shop and locate products on the sales floor
- Loading products on shelves.

2019 August Enumerator for KNBS

I was tasked with collecting data on a select area and engaging the residents of the area.

PERSONAL SKILLS

Effective Communicator: Good communication skills and ability to work well with minimal supervision in a multi-disciplined team.

Teamwork: Work hand in hand with team members to meet assigned quotas and manage projects.
